## ABOUT US

---

NetSoft Solutions (NSS) was established in **1998** with an objective in delivering innovative and reliable technology solutions with diverse range of IT products to organizations of all sizes. We take pride in delivering cutting-edge solutions by linking leading IT vendors with a network of technology resellers, systems integrators, and service providers in Pakistan.

**ATHAR SABIR** (LATE)  
FOUNDER

**NAVEED SABIR**  
DIRECTOR

The background of the image is a city skyline at night, with numerous skyscrapers and buildings illuminated. Overlaid on this scene is a network of glowing digital lines in shades of purple, blue, and pink, which appear to connect different points across the city, symbolizing a global or interconnected network. The text 'NETSOFT SOLUTIONS' is prominently displayed in the center, with 'NETSOFT' in white and 'SOLUTIONS' in a light blue color. The overall aesthetic is high-tech and modern.

# NETSOFT SOLUTIONS

## CEO MESSAGE

Extending our sincere gratitude to our Partners and customers for their unwavering support for us. Based on our solid business portfolio, NetSoft Solutions (NSS) has delivered reliable and smart solutions. We are committed to achieving innovation and technology excellence, which will give us a strong competitive edge in the market and help us take our next great leap forward.

M. SABIR

## OUR VISION

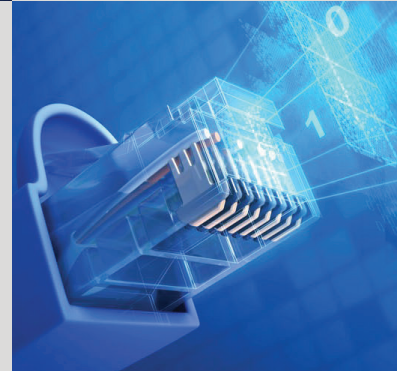

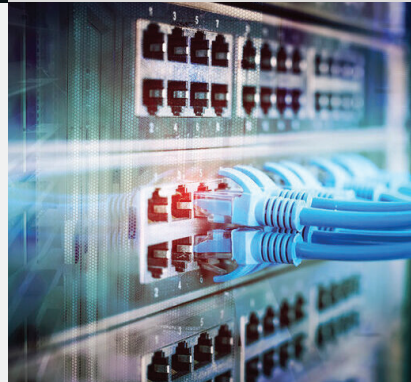

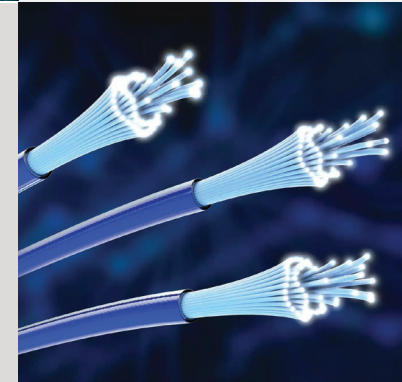

---

Our vision is to be the specialist distributors for our partners, assisting them in harnessing the power of technology to build purpose driven, easy-to-use, secure and reliable Networks.

## OUR MISSION

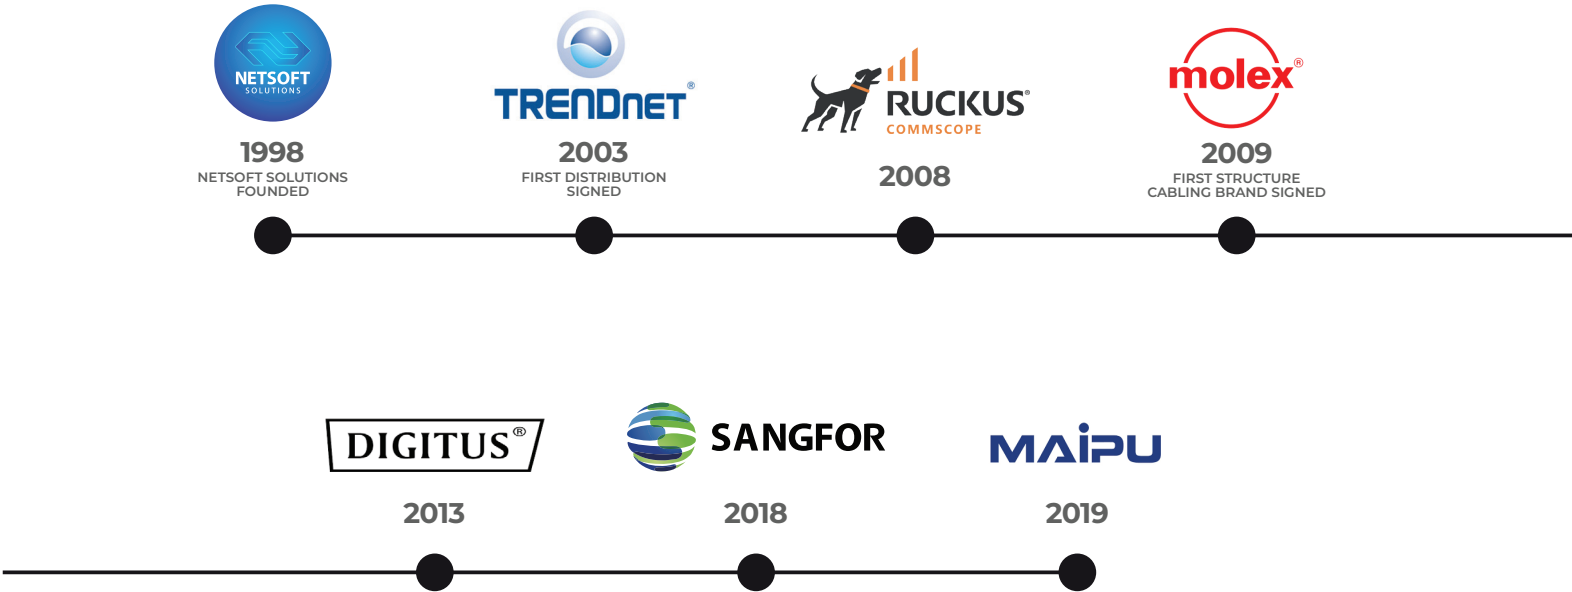

---

To transform businesses through technology and provide viable network solutions in wired, Wireless and Network Security having blend of quality with economical prices.

## OUR HISTORY

## OUR CORE VALUES

### Strategic Partnerships

Establishing and nurturing relationships with renowned IT equipment manufacturers globally.

### Efficient Distribution

Ensuring timely and secure delivery of high-quality IT products to our extensive network of clients.

### Technical Support

Offering dedicated technical assistance to partners and end users for seamless integration and optimal utilization of IT equipment.

### Market Expertise

Providing insights and market intelligence to both partners and end users, facilitating informed decision-making.

### Customer-Centric Approach

Prioritizing the needs and satisfaction of our customers, striving to exceed expectations.

# TECHNOLOGY VENDORS

INNOVATE, CONNECT, SECURE.

## RUCKUS PRODUCTS

RUCKUS Networks builds and delivers purpose-driven networks that perform in the tough, unique environments of the industries we serve. Leveraging network assurance and enterprise-wide automation driven by AI and machine learning (ML), we empower our customers to deliver exceptional experiences for every employee, guest, customer, student and resident who counts on those networks to connect with their digital lives.

### Wireless Access Points

Experience seamless wireless connectivity with RUCKUS access points.

### Ethernet Switches

Get the best of both worlds with our RUCKUS Ethernet Switches.

### WAN Gateway

RUCKUS® WAN Gateway (RWG) is a powerful, comprehensive network services platform for enterprises and service providers.

### Network Control & Management

Streamline your network control & management systems with our cutting-edge solutions.

### IoT Networking Systems

Looking for reliable and efficient IOT networking solutions?

### Network Access & Policy

Protect your network with our comprehensive BYOD security solutions.

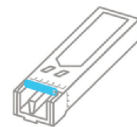

### Service Assurance and Business Intelligence

Discover network health monitoring and its benefits for your business with our network analytics insights.

### Network Reporting

Stay ahead of network issues with our big data network analytics and reporting.

### Optical Transceivers

Upgrade your network optics with RUCKUS Optical Transceivers.

### Accessories

Stay connected and on-the-go with RUCKUS Accessories.

# SANGFOR

Sangfor Technologies is a leading global vendor of IT infrastructure solutions, specializing in Cloud Computing & Network Security with a wide range of products & services including Hyper-Converged Infrastructure, Virtual Desktop Infrastructure, Next-Generation Firewall, Internet Access Management, Endpoint Protection, Ransomware Protection, Managed Detection and Response, WAN Optimization, SD-WAN, and many others.

### SANGFOR CYBER COMMAND

Cyber Command is the next-generation, AI-driven Network Detection and automated threat response platform that helps businesses identify threats and hunt them down.

### SANGFOR ENDPOINT SECURE

Sangfor Endpoint Secure is a different approach to defending systems from malware and advanced persistent threats (APTs).

### SANGFOR HCI

Sangfor HCI (Hyper-Converged Infrastructure) is the new generation of cloud IT architecture that is built on the innovative 3rd generation, Hyper-Converged Infrastructure platform.

### SANGFOR IAG

As a leading vendor of Network Management solutions, Sangfor's IAG Secure Web Gateway has been listed in the SWG Gartner Magic Quadrant for 10 consecutive years.

### SANGFOR NGAF & NSF

Sangfor's Next-Generation Firewall eliminates 99% of malware at the perimeter

Sangfor's Next Generation Firewall (NGFW) is a network firewall security device designed to filter and inspect network and application traffic for threats.

### SANGFOR ADESK VDI

Sangfor aDesk VDI – A Virtual Desktop Infrastructure Solution that is the latest virtual desktop cloud solution based on hyper-converged infrastructure.

TRENDnet's vision is to build innovative, easy-to-use, and reliable Networks People Trust™. TRENDnet solutions network countless devices to enable your connected lifestyle and workplace. Building awardwinning networking solutions since 1990, TRENDnet connects you with what you value most. Founded in Torrance, California, TRENDnet has grown to become a leading global networking hardware brand.
